# wait, WHAT?

A Comic Book Guide to Relationships, Bodies, and Growing Up

Heather Corinna • Isabella Rotman  
Colored by Luke B. Howard

# MASTURBATION IS HEALTHY, AND NOTHING TO BE ASHAMED OF.

Masturbation is a word we use to describe when someone touches their own body to give themselves comfort and pleasure, or to express or explore sexual feelings, by yourself. Usually masturbation involves touching your genitals in some way, but it doesn't have to. It's something that almost everybody has done, and something people usually first did when they were little kids, way before they knew the word for it.

## WHY DO PEOPLE MASTURBATE?

For the most part, people masturbate because it feels good. People masturbate to learn about and feel connected to their body and their sexuality. People masturbate because they have sexual feelings and want to express them, or to get relief from feelings of tension. Masturbation is sometimes about having an orgasm and sometimes just about tingly feelings. The biggest difference between sex with other people and sex with yourself is you're only thinking about your own pleasure and what you want. To be ready for this kind of sex, you just need to be ready to be sexual with yourself.

## WHAT DOES IT MEAN TO BE A

Speaking of words, do you guys know what the word "virgin" means? Some older kids were saying things to my sister about it, and she was really upset.

I know! I looked it up when I was reading a fantasy book because a "virgin" was being sacrificed to a dragon, and I didn't know what it meant, either.

It means "a person who has never had sexual intercourse."

Your sister must have had sex.

That's why they were being mean to her? I don't get —
